**A NEW PARADIGM:
QUALITY OF ALL LIFE**

Willy Vandenbrande
QS Consult, Belgium

**PROBLEM OF THE PAST:
NOT ENOUGH OF EVERYTHING**

- After World War II there was a shortage of many things
- High economic growth and social order systems seemed progress for all
- Quality Management played a major role in making this possible by supporting a quality movement

But the system is showing signs of fatigue

- An economic system that was over its head and could not grow
- We have everything, but we can't do anything with it
- People are losing interest in the system and are looking for solutions from outside the system

**THE CURRENT PROBLEM:
TOO MUCH OF EVERYTHING**

Too many cars
Too much pollution
Too much money (inflation)

1000 years ago there was nothing at all

Then after

Can the problems of the past be solved by a system that is based on human nature?

Do we need a paradigm shift?

- Human Nature: Human Potential (HNP) as a New Paradigm (HNP)
- Human Nature: Human Potential (HNP) as a New Paradigm (HNP)
- Human Nature: Human Potential (HNP) as a New Paradigm (HNP)
- Human Nature: Human Potential (HNP) as a New Paradigm (HNP)
- Human Nature: Human Potential (HNP) as a New Paradigm (HNP)
- Human Nature: Human Potential (HNP) as a New Paradigm (HNP)
- Human Nature: Human Potential (HNP) as a New Paradigm (HNP)

Quality will solve future problems

Human Quality Management

Too Quality

- Believing in the power of quality
- Believing in the power of quality
- Believing in the power of quality
- Believing in the power of quality
- Believing in the power of quality
- Believing in the power of quality
- Believing in the power of quality

Money or Beauty?

**IMPROVING OUR UNIQUE ECOSYSTEM BY APPLYING THE NEW PARADIGM
QUALITY OF ALL LIFE**

PLANET EARTH

People
People
People

VISION

People are better than machines

STRATEGY

The implementation of the new paradigm is the key to success. It is the only way to achieve the quality of all life.
