

Indus University Leads Nationwide Dialogue on Quality Assurance

Indus University

The Quality Enhancement Cell (QEC) at Indus University organized a session on “Enhancing Institutional Review using QEE Matrix and RIPE Framework,” led by Dr. Muhammad Wasif, Director QEC at NED University of Engineering and Technology. The session introduced the RIPE Framework, developed by the Quality Assurance Agency (QAA) of the Higher Education Commission, as a tool for self-assessment, stakeholder engagement, and alignment with quality standards.

Over 70 QEC representatives from universities nationwide attended in person and online, sharing experiences and best practices.

Participants highlighted the session’s practical insights, expected to strengthen quality assurance processes and promote continuous improvement. The initiative also reflects Indus University’s commitment to SDG 4 (Quality Education) and SDG 17 (Partnerships for the Goals).
