

Thalassemia Awareness Session.

Hosted by the **Department of Allied Health Sciences** in collaboration with **Help International Welfare Trust (HIWT)**

A meaningful session focused on educating students about Thalassemia, early detection, and prevention. Special thanks to **Mr. Adil Ahmed Khan** and **Dr. Syed Mohammed Zeeshan** for their impactful presence.

Free Thalassemia trait testing was provided to all attendees—because awareness starts with knowing your status.
